I have always loved nature with a passion and enjoy painting landscapes, animals and flowers. I especially adore horses so the St James horse auction provided some lovely subjects. Living in Amberley is so inspiring, as I am surrounded by a very diverse range of topics to photograph, sketch and paint. I use acrylic paint on whatever material is available such as canvas, wood, metal or stones. I enjoy painting on commission, catching beautiful memories of places or animals in paint for people to have in their homes.

I am thrilled that Charlotte and the ACAC have asked me to exhibit in Hanmer. This has brought on a new lease of life and purpose to my art. My inspiration comes from back country visits to places like the St James Station, beaches, rivers, a recent photographic tutorial, birds in our garden and things I notice when passing.

I hope you enjoy this collection of diverse scenes and colours.

There will be a small opening for Marguerite's exhibition: Sunday 11th of June in the Hanmer Gallery @ 5 pm.
